

Number Line Race Game

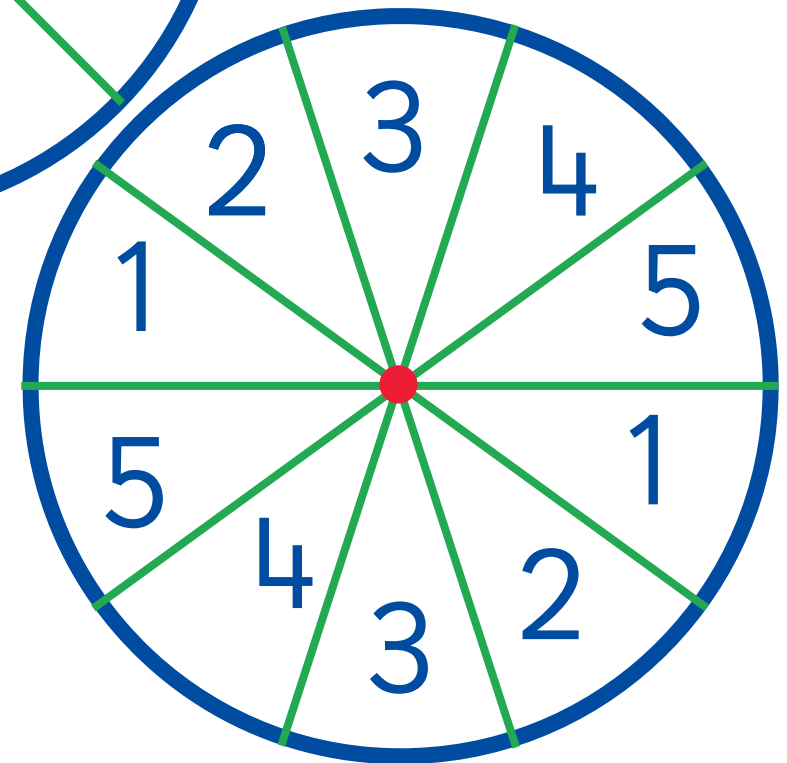

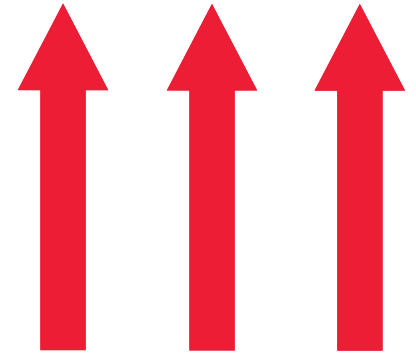

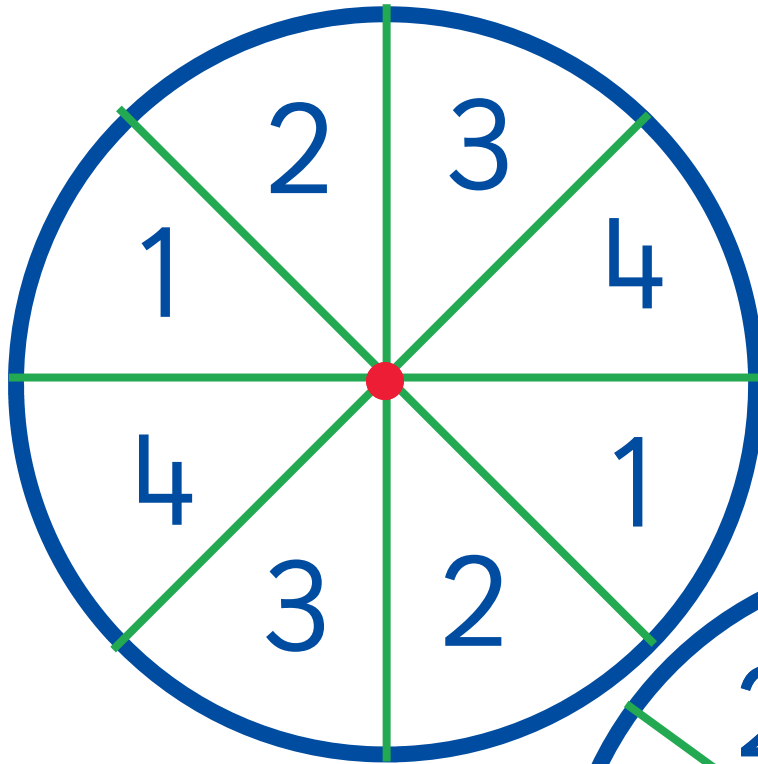

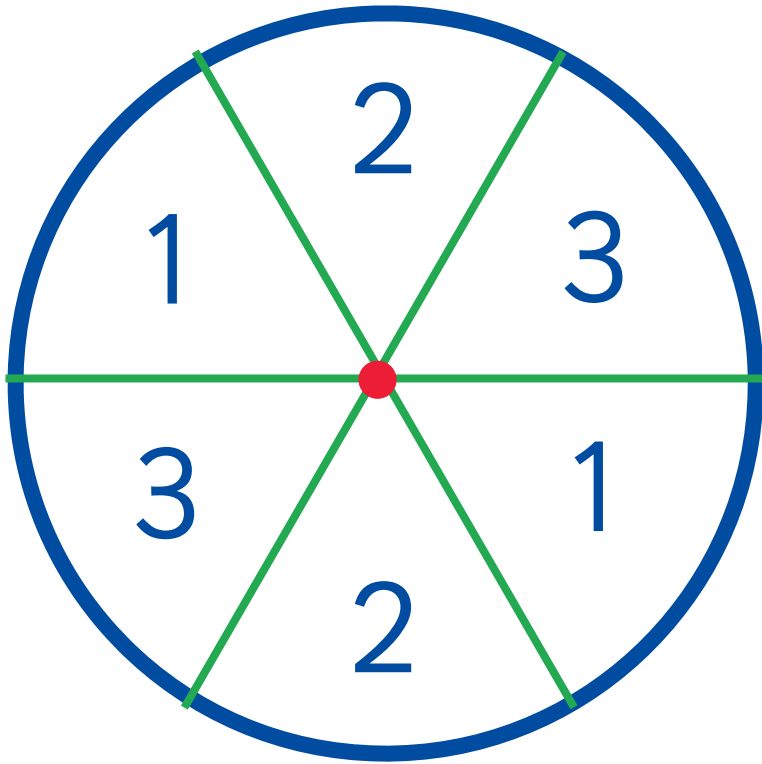

This game is for 2 or 3 players. You will need the number spinner, counters, for traveling along the game board, and a blank number line and pencil for each player. Players take turns to spin and move their token along the game board the correct number of spaces. Players then draw the whole jump on the number line and note how big the jump is (above the jump) and the number they have reached (under the line). There are different number spinners included so that the game can be matched to player ability.
